SUPERSTITION:

Its Injurious Effects Upon the Human Mind. NUMBER TWO.

Persons have been found in all ages of the world to impose on the weak and credulous for their own selfish interests; and at the present day these may be recognized in conjurers or fortune-tellers, clairvoyants, spirit rappers and the | the original was destined to become his

like. All these fall under the condemnation of Scripture, unless they can exhibit an undoubted commission from the Supreme Ruler of the universe, in a conspicuous miracle. Now, we should consider whether such things are consistent with pure religion and morality. In the first place they are clearly forbidden in Scripture, Exodus 29, 18. Galatians 5, 20, besides are a gross insult to a just and holy and benevolent God. They enslave and debase the human mind and unfit it for the love, obedience and devotion of their Creator. A terrible hindrance to their growth in grace, and without a shadow of good to either body or soul.

As we said before, to resort to these mpostors is insulting to the Supreme, All-Wise Governor of the universe, who, wisest, as well as most merciful, to vail futurity from their gaze should permit the vail to be withdrawn by a godless woman or man merely to gratify idle curiosity of a distruster of His providence, for the pecuniary benefit of that godless person. For when was it ever known that one of these pretenders to the power of looking into futurity was

a faithful servant of Christ? In resorting to witches, fortune-tellers &c., we must suppose one of two things Either, that the supreme Governor of the Universe permits a human being, to unvail futurity, for the gratification of his own covetousness, or the idle and wicked curiosity of a distruster of His Hotel has been put in order and is now | Providence; or we must determine to resign ourselves' to the protection and guidance of evil spirits the avowed enemies of God, or their agents in human

So it often happened that the chosen people of God relapsed into idolatry, but does this prove that either was the case of the Golden Calf, and the daring act of Saul in resorting to the witch of Endor.

The idolaters were destroyed, so was Saul, his family and his armies. Samuel appeared to Saul, and pronounced his doom by the power of an avenging and injured God. The witch was herself astonished and dismayed at his appearance, thus proving that the miracle was not by her power. It she had been accustomed to calling up the dead, she surely would have become accustomed to their appearance also, and ceased to feel alarm. Besides this, Samuel ap peared before she had commenced her usual incantations. As Saul was punished for this rebellious and impious

In a few days the young lady received a letter from the same young man, stating that he had received a photograph of herself, from Madam —, in the city of New York, with the information that wife. He also stated that his object in writing, was to request her to send him a true photograph of herself that he might be assured she was as beautiful as was represented by the photograph received from the fortune-teller in New York. If so he would lose no time in hastening to claim his prize. At this the young lady was very much alarmed and agitated, but said nothing about the affair. But it is a matter of utter astonishment to the present writer-that respectable, enlightened journalists should defile their columns with such vile and heartless impositions. Can they expect blessing to such gains?

Again we know, that many enlightened, but credulous people, resort to what are called Spirit Rappers to procure them communications with their departed friends, and that without reflecting upon the great difficulty of these spiritual undertakings.

It they effect this wonder by the power of the Evil one, then it is blasspiritual communications, denounced in phemy in them, and daringly impious in christians to accept their offices.

But is it at all possible that the God who created and redeemed those souls, now in His keeping, should suffer them to be subject to the call of Satan or his agents in human form, or cause them to be returned to this mundane sphere at their bidding? Surely no rational God-fearing per-

son will boldly maintain this. How dare we suppose that the great Creator of the Universe would sanction or permit such interference with His Providence over the world?

Our mercitul Creator has graciously vouchsafed us a Revelation of this will, which is amply sufficient for the attainment of prosperity and peace in this world, as well as eternal blessedness in Heaven. Why should his dependent creatures resort for aid or comfort, to other and inferior, if not eyil powers, without a shadow of assurance, even of the existence of such powers?

In this favored land, God's word is open to all, and there is no excuse for the implety of resorting to impostors and blasphemers? And those who are guilty of this impiety, do but incur the displeasure of their Creator, and endanger the salvation of their souls.

A LOVER OF TRUTH. Wynne versus Lee-The Sheriff's Re-cent Settlement-What the Chairman of the Board of Commissioners Says of It.

We published a few days since, through these columns, statements gathered from official sources relating to the settlement of Sheriff Lee with the County Commissioners of Wake. We have received from the Chairman Board of County Commissioners, R. W. Wynne, in vindication of his course in regard to the county taxes, and protesting against the action of the Board, the following communication, which will be read with interest by the people of Wake:

To the Editors of the News : GENTS:—In justice to myself and in vindication of the course I have uniformly pursued since I have been one of the Board of County Commissioners for Wake county, I respectfully ask that you will give this correction of the statement headed "The County Taxes," which appeared in the local columns of the News, on the 24th inst. the same publicity which you gave to inst., the same publicity which you gave to the statement itself. In that statement it is said; "According to a statement, heretofore published by the

Board of Commissioners, it was made to appear that the Sheriff was in default to the amount of \$38,319 i7, when in fact the amount of the Sheriff's indebtedness was but \$31,670.52 Of this amount there is now due from the people of Wake county over \$5.600.

The foregoing contains nothing but error, as the Sheriff himself virtually acknowledges in the next number of your paper, when he requests you to say that, "the statement of the Board is, in the main correct," The Sheriff must have known on the 24th as well as he did on the 25th, that he lowed the county more their \$31,670.52; and that instead of \$28,423.89 which he says he paid in youchers, he only naid \$27.40 to and that instead of \$25,423.59 which he said \$27,494,12 for which he has the Treasurer's receipt. He also settled the poll tax of 1872, \$4,237,75, by an allowance of insolvents, \$81,975 and the balance cash—fig first oash HE has

as she said "out of mere curiosity and a love of fun," wrote to the fortune-teller, to make known to her her future husband.

The letter was immediately answered, with a photograph enclosed of the future husband, with the full name; and place of residence.

The said "out of mere curiosity and had paid in vouchers, \$7,494.12 on the general tax account, and had settled the poll tax of 1872, as above set forth, and that was all he had paid.

These payments left still standing against him a balance on the general tax account, including interest from May and deducting insolvents, Capitation tax, 1871, and interest, 3,763 83 Amount collected from J. J. Ferrell and sureties, and interest, 1,070 65

To which must be added an error of \$8,448 \$915, which amount he did not pay though he has the Treasurer's receipt for it and interest, 1,098 \$ 9,546 96

That is the amount standing charges against the Sheriff, including interest at a per cent. per month, calculated from 1st of May, 1878.

per cent. per month, calculated from 1st of May, 1873.

In justice to the Sheriff it is proper to say, that before the Board adjourned he stated that he was prepared to settle all except the poll tax of 1871, to-wit: \$3,189 69, and interest. And I am informed that on the next day, or the day thereafter, his deputy informed the Treasurer he had vouchers, which, with his commission, would settle the balance on the general tax account, and the smount due on the Ferreit judgment, and offered to transfer them to him. As they had not been examined by one of the Board, as required by law, the Treasurer was advised not to receive them, nor did he receive them.

The foregoing is a true statement of how the matter stands between the Sheriff and the county. In the statement of the 24th, it is further said: "Of the poll tax the Sheriff reported on oath, as insolvent and uncoincetable, the sum of 383, but owing to a strict construction of the law, this amount was not allowed by the Board, This is far from being true. He returned a list of \$1,538.70 for insolvents, which was allowed him, less \$43,65, which he himself withdrew, I voted against allowing it because I was satisfied that in some of the townships the law had not been compiled with.

In the statement it is also said that "the

In the statement it is also said that "the Chairman of the Board contends for the payment of interest at the rate of 2 per cent per month on the whole amount of taxes from May lst until date, on the ground that the Sheriff had no right to hold the money after that date." His time of settlement had been extended from time to time, till the 1st of May, when the law made it my imperative duty to sue the Sheriff's bond. I did so, and was advised by my counsel that neither I nor the Board had any right or power to, remit the interest or penaltics charged by the law against a defaulting Sherin.

any right or power to, remit the interest or penalties charged by the law against a defaulting Sherin.

As to this question of interest, what are the facts, and ought the Sheriff to pay it?

The law requires that the Sheriff shall settle the taxes within the first ten days of January. Sheriff Lee prevailed on the Legislature to extend his time of settlement with the county until the lst of March. The Board at that time extended his time until the loth day of April. The Sheriff was not then prepared, and the Board further extended the time till the lst of May, at which point their power of extension ceased. I opposed these different extensions for the following reasons: The Sheriff had failed to pay the State capitation taxes of 1871, amounting to \$3,189.69 at the time they were due, January, 1872, and still owes the same, thus keeping the school fund out of that amount.

On the settlement in 1872, the Sheriff exhibited a receipt for \$1,015 in vonchers, which should have been for \$100; the receipt having been obtained from the County Treasurer under such circumstances as, in my opinion, did not entitle the Sheriff to any indulgence or favor at the hands of the Board.

The Sheriff had hypothecated a large amount of county vonchers in one of the

The Sheriff had hypothecated a large amount of county vouchers in one of the city Banks, and had used the money raised thereby not for the benefit of the county, or of the Common School fund. And although those vouchers remained in Bank from February to July, amounting to some the county of the county to July, amounting to some the county to July amounting to some the county which the county was a supplied to relate the south that the county was a supplied to the county was a su over \$300 of county money. If he does, he has to pay 10 per cent. per month on the amount so retained.

The law also charges the Sheriff with interest at the rate of 2 per cent. per month on the amount not accounted for at the time the law prescribes, to-wit, in Janu-

For the foregoing reasons, and for the still further one, that the Sheriff in his set-tlement, heretofore had not been governed by the provisions of the Revenue law, but acted altogether outside the law, I opposed all extensions of time for his settlement. The length of this communication already forbids my noticing many other facts relatforbids my noticing many other facts relating to the county finances, which would be of interest to the people of the county. Taxes to the amount of thirty-five or forty thousand dollars are yearly collected, and the county Treasurer never has a cent in his hands to pay county indebtedness. If a witness or juror wants the money for his ticket he has often to submit to be shaved from 21to 50 per cent, on it. irom 20 to 50 per cent, on it.

If the Sheriff would settle as directed by by law this would not be. If the poli tax was paid when it ought to be paid there would be some \$7,000, or more to spend in educating the poor children of the county-

every year.

The tax lists' are still in the hands of the

The tax lists' are still in the hands of the Board, though the law positively directs that they should be given out the 1st Monday in July, and that the Sheriff should advertise a certain number of days in July to enable the people to collect and get together the money to pay their taxes.

So much for the errors which were contained in the statement of the 24th.

The same appeared in the "Sentinel," and I respectfully ask that paper to give this communication a place in its column. If necessary, I will further speak of our finances until the people become thoroughly acquainted with the manner in which they are collected and disbursed.

CITIZENS CORNET BAND.—The members of this excellent band requests us to state that the reason of their failure to play every Wednesday afternoon in the Capitol Square, as per announcement, is attributable to the fact that the authorities have failed to put up a stand for their accommodation, as they promised to do. To go to the Square and stand up for a couple of hours, surrounded by a regiment of whooping and yelling boys, is too much to ask at the hands of these gentlemen. They authorize us to say that if any arrange ment is made by which they can play for public gratification with any degree of comfort and satisfaction, to themselves. they are willing to carry out their original proposition, but not otherwise. Let us have the stand erected.

JULY 31, 1873. THURSDAY ...

THE ELECTION, AUGUST THE The election to be held in this State on the first Thursday in August, on the constitutional amendments, is one of vast im-

portance to our people, It involves vital changes in the organ law of the State.

For the information of voters, we pub lish on our fourth page, and shall keep standing until the day of election, the clauses in the Constitution proposed to be altered, together with the eight amendments that passed the Legislature by the requisite constitutional majority, and which are to be submitted to the people for approval or rejection, on Thursday, the seventh day of August next.

All the amendments proposed are necessary and important, and those who favor them should not fail to vote.

THE MANNER OF VOTING. Constant inquiries are made of us

concerning the manner of voting at the ensuing election in August. have prepared the following instruc-THERE MUST BE BIGHT BOXES. There are eight amendments in all.

As they are to be voted on separately, the poll-holders must have BIGHT BOXES for the ballots. Each box should be labeled with a written or printed form, specifying the particular amendment to be voted on in said box. THERE SHOULD BE EIGHT LABELS.

The following are the eight forms which should be isbeled on the eight boxes, respectively: Amendment to the Constitution of

North Carolina in relation to the Public Amendment to the Constitution of

North Carolina in relation to the office of Superintendent of Public Works. III. Amendment to the Constitution of North Carolina in relation to the State

Amendment to the Constitution of North Carolina in relation to exemption

printed, either with the words "For Amendment" or the words "Against Amendment " Persons voting for the amendments

should use the former, while those voting against the amendments the latter. THE POLLS.

Sheriffe must open the polis at the several election precincts in their repective counties on the seventh day of August, at eight o'clock in the morning and keep them open until seven

WHO MAY VOTE. Every person qualified to vote according to the Constitution may vote for or against each amendment.

RATIFICATION.

At the close of the polls, the judges of the election shall count out separately the number of votes cast for and against each amendment. After all the returns from each county have been officially counted, it will then be accertained which of the amendments have been ratified, if any, and which rejected The amendments which receive a majority of the popular vote of the State will be duly ratified and become then a part of the Constitution of North Carolina. A part or all of them may be either ratified on rejected.

ASLEEP!

On the eve of one of the most impor tant elections ever held in the State. there is a lothargy that is hamentable. On the seventh day of August, the

of striking out some of the most oppressive features of the Constitution.

It the amoudments are voted flows, where will the blame lie! Our people seem ASLEEP! Will they

not wake up before it is too late ! If they will not help themselves, the must not complain heres fer.

NO REPIRENC!

After the seventh of August, it will be too late to reproach ourselves on account of our failure to vote for the amendments.

Ignorance of the emportance of the election will be but a poor pentert. If the amendments are defeated, is

will be a great calamity to the State but the people should exercise Jartinde and resignation. There should be no repining after the seventh of August.

IN WHAT CASES REGISTRA.

If your same is act on the registra tion books you cannot vate.

Therefore, see to it that it is there!
If you have changed your residence since the last election, it is your date to the your mine regimered in the town-

Your name should be earolled on the books of that township in which

you desire to vote. Examine the registration books and see if your name has been left off. Virginia

THE CONSTITUTIONAL AMEND-MENTS.

For sometime, we have been daily

These amendments are so important and passed the Legislature with so little opposition, it was generally thought that no attempt would be made to defeat their ratification at the polls.

Our information from many portions of the State is to the effect that the people are very indifferent on the subject of the election, and fears are now expressed that the amendments will be

While we are of opinion that they will be ratified, yet we think there is DANGER of their defeat because of the unaccountable apathy which seems to exist among the masses.

We say this apathy is unaccountable, because the changes proposed are for the public benefit, and give relief from certain expensive and unnecessary clauses of the Constitution, which, it must be apparent to every one, ought to be stricken out of that instrument.

We think our public men of both parties have made a mistake in not in forming the people in public meetings, by public addresses and printed circulars, of the importance of these amend. ments and of their duty to support them at the polls,

The duty of arousing public interest in the election has been left exclusively to the public press. It is not too high an estimate when we say that more than two-thirds of the voters of the State do not read the papers at all. While the press has a great duty to perform, and its influence cannot easily be over-rated yet a great responsibility rests upon our public speakers and politicians which they cannot easily escape.

The people seem to be in utter ignorance of the propriety and necessity of rativing the amendments. There being no party issues at stake, there is a want of interest in the election that is truly amazing. It is time for them to wake up. The welfare of the State is concerned. The amendments are of vital importance. They are necessary and proper. They give permanent relief from unnecessary taxation. The people have now an opportunity of lifting some of the burdens from their shoulders. If they will not do it, where will the blame lie?

SHOULD NOT COMPLAIN. It any of our sucscribers are disposed to complain of the space we devote to the constitutional amendments, they been with no until the seventh de

of August. We regard it the duty of the press of the Brate to do all in its power to

the ensuing election. On all sides reports reach us that the people are ASLEEP and take no interest in the fate of the amendments!

Whatever may be the result of the election, we shall not feel we have done our duty if we fail to urge the necessity of the ratification of the amendmentsone and all.

We devote about two columns on our fourth page and three fourths of a column of standing matter each day on our editorial page to articles relating to the election. Besides this scarely a day passes that we do not write one or more articles, urging voters to the polls, and setting forth the hardships which the

amendments propose to relieve. Most of our State exchanges exhibit deep interest in the result, and are

constantly appealing to their readers. If the amendments fail, the failure cannot be attributed to the want of zeal on the part of the State press. But that zeal must not flag, but rather inrease, in view of the ALARMING APATHY exhibited by the public in the election.

We repeat, our subscribers must not complain, if from this time until the day of the election, the constitutional amendments shall claim most of our attention. The amendments offer PER-MANENT RELIEF from honocessary taxspeople will be allowed an opportunity tion and oppressive clauses in the Constitution. If they are voted down, it will be too late to complain that they were not understood.

> We pronounced the Lousians unification movement a failure at the start. Whilst we have as much abhorrence as any can to the doctrines proclaimed by the so-called people's party in that State, we think Gen. Bestregard ought E not to be assailed too severely for his false step. It may be that helps wrong headed. Let us give bim an opportunity of retracing his footsteps, rather than drive him to the enemy by cheap depunciation.

REGISTRATION!

Examine the Registration books before the day of election, and see that your name is enrolled. No new registration is necessary, but if from any cause your name does not appear on the reigistration books, you will not be allowed to vote.

In Hillsboro, on Thursday evening last, a kerosene lamp exploded in the diet Church during a lecture by Rev. P. A. Strobel. For a minute a considerable panic prevailed and during the excitement a Miss Pogul was considerably hurt by a fall from a window through which she was endeavoring to escape. The flames were speedily extinguished and the lecture resumed.

In speaking of the tobacco crop, the Hillsboro Recorder in its last issue says "From our own observation upon the crop of the best tobacco region of Orange, and from the information of farmers from all portions of Orange, Person and Caswell, we feel justified in saving that the condition of the crop in all these counties is unfavorable in the extreme. A bad stand in the first place was obtained. The young plants were met in the outset, by the cool unfavorable weather, and since the season has become really hot, there has not been enough rain to ensure steady vigorous growth. The consequence is, most fields present the appearance of imperfect stands of badly grown plants, which even if they should be pushed forward by future favorable weather, will be late in maturing, and the product will consequently be inferior. Very little tobacco is ready for copping, and as this operation the last of July or early in August is essential to the higher qualities, there can be little of this kind made. The three counties named yield about one fourth of the production of the whole State. From present indications it would not be safe to calculate on much more than half a crop.

PIEDMONT AIR-LINE. -The Piedmont Air-Line is the designation of the line of railway extending from Richmond to Atlanta, Ga., a distance of 548 miles. It embraces the Richmond and Danville Railroad, 140 miles; the Piedmont railroad, from Danville to Greensboro, 49 miles; a portion of the North Carolina tailroad, from Greensboro to Charlotte intersection, 92 miles; and the Atlanta and Richmond Air-Line, from Charlotte to Atlanta, 266 miles, This latter road is in prog ess of construction. The last rail will be laid about the 1st of August, and the road opened for business in September, in season for the cotton crop, which is unusually promising.

In addition to the trunk line just described, there are two branches nearly completed, viz: the Roanoke Valley tailroad, from Keysville, on the Richmond and Danville railroad, to Clarkesville, at the confluence of the Dan and Staunton rivers, 31 miles; and the Northwestern North Carolina railroad, from Greensboro to Salem, 29 miles. The line trayerses what is known as the Piedmont region of Virginia, North and South Carolina, and Georgia, and it is one of the most desirable and attractive agricultural and mineral regions in the United States.

From the New York World of July 18. Free New Jersey.

Our readers cannot have forgotten that when the surrender of the New Jersey railroads to the Pennsylvania monopoly was proposed, and down indeed till the first judicial decision was made, nowhere did it meet more earnest opposition than in the columns of the World. Economically, we knew it to be wrong and injurious to all parties. even to that one which so eagerly desired it. Legally, we believed the consignment to be invalid; and it now seems that the doubts on this head which as laymen we expressed, are fully sanctioned by the highest judicial tri bunal of the State. Nay, the very point which more than a year ago we made, and before the argument before the Chancellor had begun, that an act authorizing a company to consolidate with other companies in the State, "or otherwise," did not permit a consolidation out of the State-that "otherwise" did not mean "elsewhere"-this point has been the fatal one. Every one

knew at the time that the enabling act was a bold legislative fraud quite worthy of that eminent jurist in the green who in the dry decides legal tenders to be constitutional. The New Jersey Court of Errors, from which there is, we believe, no appeal, decides by a nearly unanimous vote that the leases in question and the agreements to lease, and of course the contracts of guaranty, are utterly and absolutely invalid. We sincerely congratulate New Jersey on this new proof of the integrity and independence of her judiciary. This unlooked for decision is practically suggestive of a good many matters. In the first place it shows with what utter recklessness the audacious policy of the Pennsylvania Company is carried out. What would be thought in a matter of contract involving millions between man and man of its being absolutely and precipitately executed and the money paid whilst there was pending litigation as to the validity of the contract itself? The delay of a few months could have done no harm. But such caution does not suit these corporations. Their tactics are always bold. By precipitating mat ters and paying money and taking possession and turning out officials and putting new ones in they think that matters may be so complicated, interests become so interlaced, as it were that adverse judicial decisions may be defied. We very much mistake the spirit of the New Jersey judiciary if this game of b uff will succeed now. It is not an honest course, and we can see

how it may prove a disastrous one. On the faith of Chancellor Zabriskie's decision, the Pennsylvania Company has already paid many bundred thousand dollars of guaranteed interest. This, of course, never can be got back. The lessees paid it with their eyes open. This, then, is their dead loss; but how as to the future of the New Jersey stock and bond-holders whom this 10 per cent, guarantee secured? It does seem to us that, in the face of such a decision, so thorough and radical that the contract is absolutely null, bold as may be the Pennsylvania directory they will hardly venture to pay anything more, and sure are we that no court in creation, not even a Philadelphia one, will compel them to go on and pay under a judicially avoided contract. Any stockholder-perhaps any bondholder of the Pennsylvania Company, has abundant ground to ask process to prevent any such wrongful payment. It certainly is a question of much gravity. It oddly happens too that at the very moment when this crisis occurs the responsible managers of this huge corporation are absent from their posts-one

sengers the while playing cards in the cabin. During the recent fire in Norfolk, Va., telegraph operator "called" nearly all of the principal offices in the country and got the following response form Omaha, "Fire a long way off, but if you can keep her awhile longer will come to your aid, as I am an old fireman, with

In order that the people may vote understandingly on the amendments to the Constitution, at the ensuing election, we deem it necessary to give in full the clauses in that instrument proposed to be altered, together with the alterations themselves.

PIRST : IN RELATION TO THE PUBLIC toldmail & Tolte DEBT.

The present Constitution in Article I, Declaration of Rights, provides as fol-

"Sec. 6. To maintain the honor and good faith of the State untarnished, the public debt, regularly contracted before and since the rebellion, shall be regarded as inviolable and never be questioned; but the State shall never assume or pay, or authorize the collec-tion of any debt or obligation, express or implied, incurred in aid of insurrec-tion, or rebellion against the United States, or any claim for the loss or ion of any slave."

This section is amended by striking out the first clause down to and including the word "but," so that the amended clause in Article I will then

"Sec 6. The State shall never assume or pay, or authorize the collection of, any debt or obligation, express or implied, incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave."

Another alteration in regard to the public debt is provided for in the same amendment, by striking out section 4. Article V of the present Constitution, which is as follows:

"Sec. 4. The General Assembly shall, by apprepriate legislation and by adequate taxation, provide for the prompt and regular payment of the interest on the public debt, and after the year 1880, it shall lay a specific annual tax upon the real and personal property of the State, and the sum thus realized shall be set apart as a sinking fund, to be devoted to the payment of the pub

So that the above section will be entirely stricken out and the amended Constitution will not make it compulsory on the Legislature, by express language, to provide for the payment of interest and principal of the public the General Assembly."

SECOND: IN RELATION TO THE OFFICE OF SUPERINTENDENT OF PUBLIC WORKS. Article III, section 1, of the present Constitution names among the other officers of which the Executive Departdent of Public Works, who shall be when assembled shall be denominated elected for a term of four years by the General Assembly."

lic Works" wherever they occur in the commutation or pardon. Constitution, thus abolishing that SEVENTH; IN RELATION TO THE CODE

THIRD: IN RELATION TO THE STATE CENSUS. In the present Constitution, Article

II, the following provision is made for taking a State Census:

"Sec. 5. An enumeration of the inhabitants of the State shall be taken under the direction of the General Assembly in the year one thousand eight hundred and seventy-five, and at the end of every ten years thereafter; and the by the General Assembly, after the first ion after the return of every enumeration taken as aforesaid, or by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The amendment proposed to this Article is to strike out all that precedes the words, "the said Senate Districts." in section 5, and to strike out the phrase "as aforesaid, or," the parts so stricken out relating to the census, so that the section se amended will read : MAN

"Sec. 5. The said Senate Districts shall be so altered by the General Assembly at the first session after the re-turn of every enumeration taken by order of Congress, that each Senate District shall contain, as nearly as may be, as any office or place of trust or profit under equal number of inhabitants, excluding the United States, or any department aliens and Indians not taxed, and shall thereof, or under this State or any other remain unalfered until the return of State or Government, shall hold or exmother enumeration, and shall at all ercise any other office or place of trust times consist of contiguous territory; or profit, under the authority of this and no county shall be divided in the formation of a Senate District, unless House of the General Assembly: Pro such county shall be equitably entitled to two or more Senators,"

The object of this amendment is to do away with the unnecessary expense of taking a State census under the direction of the General Assembly, inasmach as the same work is slone by the national FOURTH O HELF HOLD ON A N. ...

TIONS FROM TAXATION.

The persent Constitution, Article V Revenue and Taxation, provides as fol-

"Sec. 6. Property belonging to the State or to menicipal corporations, shall be exampt from taxation. The General ably may exempt cemeteries, and property held for educational, scientific, literacy, charitable or religious purposes; the wearing apparel, arms for muster, household and kitches furniture, the mechanical and agricultural impleties to mechanics and farmers, libra-ic and scientific instruments, to a value or exceeding three bundred dollars.

The amendment proposes to change this section by inserting after the word " instruments," the words "or any other

personal property," so that the section as amended will read :

State, or to municipal corporations shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, iterary, charitable or religious purposes; also wearing apparel, arms for mus ter, household and kitchen furniture, the mechanical and agricultural implements of mechanics and farmers, libraries and scientific instruments or any other personal property, to a value not exceed-ing three hundred dollars."

FIFTH: IN RELATION TO THE UNI-VERSITY.

The present Constitution, Article IX. has the following on the subject of the University at Chapel Hill:

"Sec. 5. The University of North Carolina, with its lands, emoluments and franchises, is under the control of the State, and shall be held to an inseparable connection with the free public school system of the State."

The amendment proposes to strike out this section entirely, thus severing the University from the common school system, and insert the following in lieu thereof, so that the amended Constitution shall read:

"Sec. 5. The General Assembly shall have power to provide for the election of trustees of the University of North Carolina, in whom when chosen shall be vested all the privileges, rights, franchises and endowments heretofore in anywise granted to or conferred upon the trustees of said University; and the General Assembly may make such provisions, laws and regulations, from time to time as may be necessary and expedi ent for the maintenance and manage ment of said University."

The following sections of Article IX, relating to the University, are also stricken out : --

Sections 13, 14 and 15, relating to the appointment of trustees by the Board of Education, and the officers powers and rights of the trustees. These matters will bereafter devolve on the Legislature, if the amendment relating to the University is ratified.

SIXTH: IN RELATION TO THE SESSIONS OF THE GENERAL ASSEMBLY, The present Constitution, Article II Legislative Department, provides as fol

COMMISSION. The present Constitution, Article IV Judicial Department, makes the following provisions concerning the Code Commissioners:

"Sec. 2. Three Commissioners shall be appointed by this Convention to report to the General Assembly at its first session after this Constitution shall be adopted by the people, rules of practice and procedure in accordance with the provisions of the toregoing section, and the Convention shall provide for the Commissioners a reasonable compensa-

Sec. 3. The same Commissioners shall also report to the General Assembly as soon as practicable, a code of law of North Carolina. The Governor shall have power to fill all vacancies occur-

ring in this commission." The amendment proposes to strike out both these sections, thus abolishing the Code Commission.

EIGHTH: IN RELATION TO FEDERAL AND OTHER OFFICE-HOLDERS. The present Constitution, Article

XIV, provides as follows: "Sec. 7. No person shall hold more than one lucrative office under the State at the same time : Provided, That officers in the Militia, Justices of the Peace, Commissioners of Public Charities and Commissioners appointed for special purposes, shall not be considered officer within the meaning of this section."

The amendment proposes that this section shall read as follows:

Sec. 7. No person who shall hold eided, That nothing herein contained thall extend to officers in the Militia, Justices of the Peace, Commissioners of Public Charities or Commissioners for

special purposes." There were eighteen smendments originally proposed, but the eight above specified were all that passed the General Assembly by the requisite twothirds majority.

These eight amendments are to be submitted separately for ratification or rejection, at the election to be held on Thursday, the seventh day of August. Any person qualified to vote may vote for or against each amendment, with a written or printed ticket with the words "For Amendment," or "Against Amendment." The amendments that receive a majority of the popular vote will be duly ratified. A part or all of them may be either ratified or rejected.
